Revised Estimate for
beli clearing in Jan
vana - Balagula

An allotment of
7000 Rs. is asked for
from L. 702 General. The
last G.O. on the matter
(Sl No. 12) gives the his-
tory of the work. Acco-
t to Ex-Engl's report, a-
bout 13000 Rs. has been
spent for baling out
water to carry out
real work costing a-
bout 17000 Rs. It is a
matter for serious con-
sideration whether
such wasteful work
should be carried out
from any funds. Surely
when there was so much
water as to require the
cost in this merely pre-
paratory process, it was
not wise to undertake
the work at all.

work nor the withholding
 of the 2 1/2% grant
 applied for & seems
 under the circumstances
 not wise & -
~~not with the question~~

I would therefore go
 up to the Dewan with
 an application for
 the grant proposed by
 the Chief Engineer -

No. 965

Office of the Deputy Commissioner
Hassan District.
Dated, Hassan, 29 March 1898.

From

The Deputy Commissioner
Hassan District.

To

The Secretary, to the Government of Mysore
General and Revenue Departments.

Sir,

I have the honour to state that the water in the Pond at Sravanabelagola, in Channarayana Taluk, has become a source of great danger, owing to the accumulation of a large quantity of rotting vegetable matter. This pond, I understand, was constructed during the reign of H. H. Chik Devaraja Wodegar Bahadur on a visit to this place. The structure is all of well-dressed stone and it is one of the most ornamental ones in the whole of India. The stink from the water during the summer season is so great that it is felt for a great distance all round and altogether this beautiful tank is now a fruitful source disease germs to the country about Sravanabelagola and is the cause of the fatal type of fever for which Sravanabelagola is notorious.

2. It is unnecessary to add that as the resting place of the Colossal Statue of the Jims, the place attracts pilgrims from all parts of India and visitors from Europe and that apart from the intrinsic beauty of the tank, the question of restoring the purity and abundance of its waters is one of Provincial importance.

3. The cost of clearing and removing the silt together with other needful repairs is estimated at Rs 2000/- as per accompanying Estimate submitted by the Amildar. The residents of Sravanabelagola have agreed to contribute a sum of Rs 500/- and the

Sravanabelagola

9

GOVERNMENT OF MYSORE

Swamy of the Mutt has given consent to incur an expenditure of Rs 500/- from the amount at the credit of the Inam villages, viz, Rs 14,746-3-5, up to end of December 1897. Deducting the above contributions of Rs 1000/-, above alluded to, I would strongly recommend a sum of Rs 1000/- from the allotment of Rs 20000/- under Local Funds General of the current year (vide Government Proceedings No 126 D, dated 23rd September 1897) to make up the cost of the work. I understand that Government have been pleased to sanction an estimate for improving the Sacred Kalyani at Melkote in the Krishna Rajpet Taluk, for the convenience of the large number of pilgrims visiting the place.

4. The Season being now very favourable to take up the work in hand, I request you will be good enough to obtain early orders of Government. I have addressed the Murray Secretary to sanction the incurring of the expenditure of Rs 500/- out of the funds at the credit of Inam villages under Government Management. The estimate and the Amildar's report are enclosed for perusal and obliging return.

I have the honour to be

Sir,
your most obedient servant

Bangalore.

Sir,

I have the honor to submit
herewith for sanction of Government
an estimate amounting to Rs 2250
received from the Executive &
Engineer Hassan Division for
restoring the pond (Kalyanee)
at Sravana village.

2 — For the above work a
sum

2

13

Sum of Rs 1000-00 was sanctioned
 from Local Funds General as per
 Government Proceedings to 13/32-4
L. 2/26-97
 dated 15th April 1898, the
 balance of Rs 1000 (out of the
 total rough estimate submitted
 with this office No 965 dated
 29th March 1898) being met
 from Contributions the Government
 in the District Department having
 approved to the Mutt at Sravan
 Belagula contributing Rs 500
 (Vide Government Proceedings
 No 1279-80 dated 16th Apr. 1898)
 Dated 17/95

3. In the absence of a competent
 supervising agency the work has
 been hitherto put off till at length
 it has been decided to have
 the work executed by the P. & W. Department
 Th.

4

The present time appears to be the most opportune for the commencement of the work as it will afford some relief to coolies at the copper and brass manufactures at Seravanabelagala who are now thrown out of employment owing to the depression of that industry there at present and to the distressed poor and needy ryots of the place and its neighbourhood.

5— In consequence of the important and urgent nature of the work, I have requested the Executive Engineer to issue orders to start the work as early as possible in anticipation of the sanction of Government to the estimate and I beg to state

3

15

state that the amount of the estimate
can be met from the sum of
Rs 13,985 sanctioned in Govt
Proceedings No 6650-1 dated 9th
L. 2. 15-99
December 1899 from Local Funds
General for completing the
incomplete work of previous
years which includes the estimate
amount of the proposed work
in question.

No. 167

Deputy Commissioner's Office
Hassan District.

Dated. Hassan, 4th September 1902

From,

The Deputy Commissioner.
Hassan District.

To,

The Secretary to the
Government of Mysore,
General and Rev. Department.

Sir,

I have the honor to submit, herewith, a plan, a revised Estimate amounting to Rs 8800 and its accompaniments, received from the Executive Engineer, for improving the Kalligai (Pond) at Sravanabelagola, Channarayana Taluk.

2

An Estimate for Rs 2250 (herewith submitted for reference was sanctioned by Government

in their Proceedings No. 10883-6 Dated
12-97

in March 1900, and in the course
of the progress of work it appears
to have been found out that
the same was considerably less

than the requirements. The Executive Engineer states in his
detailed report that it was
impossible to foresee the cost
of draining the water and to
estimate the quantity of silt re-
quiring to be removed and I
beg to express my concurrence
with the Executive Engineer in the
reason given by him for the
considerable disparity between
the sanctioned estimate and the
one now submitted. It seems
to me that any attempt at

estimating

Estimating works of this nature at the outset would necessarily be very far from being accurate; and so it has been turned out in respect of the present work.

3 — The importance of the work at present undertaken may be seen from a perusal of the report of the Executive Engineer already referred to. Not merely from the sanitating and antiquarian points of view, it is very necessary; it has been of special value in affording employment to a number of needy agriculturists and laborers in that part of the locality

4 — With regard to the nature

3.

of the work it was submitted
that it is such that after once
commenced it must be com-
-pleted as expeditiously as possible
since otherwise extra cost will have
to be incurred unnecessarily -

5. — Having regard to the
above circumstances I solicit
that you will be pleased to obtain
sanction of Government to the
revised estimate. It being how-
ever considered sufficient in
view to the financial pressure
to appropriate only Rs 4000 in the
current year. It may be added
that out of the total estimated
amount of Rs 2250 sanctioned
in March last only Rs 730 is
stated to have been spent before
the

the close of the last year, the
rest having lapsed. As the cost
of the original estimate was chiefly
met from the Local funds.

General, I beg that the re-
vised estimate may also be
kindly sanctioned out of the
same funds. —

6 — The Executive Engineer
has written to say that owing
to the urgent nature of the
work it is being proceeded
with in anticipation of sanc-
tion to the re revised Estimate
herewith submitted, that the
sanctioned re revised Estimate
has been already exceeded, that
in spite of the sad accident
at the Kallyan, labor is free,
coming

4

Coming to the work and he is
 satisfied that the laboring
 classes in distress in the
 surrounding villages are in
 great need of work. I would sub-
 mit that in view therefore
 to the exceedingly urgent nature
 of the work, I have requested
 the Executive Engineer to push
 on with the same only up to
 the limit of Rs 4000 proposed
 to be appropriated in the cur-
 rent year. ~

I have the honor to be

File No.	3-97
Serial No.	10

Letter No 167 dated

4th September 1900, from the Deputy Commissioner and President of the District Board Hassan, submitting for sanction a revised estimate for Rs 8,800, for improving the Kalyani at Sravan. Balagola in the Shivar-patra Taluk, in lieu of the estimates sanctioned in the marginal, noted Proceedings, and stating that, in the course of the progress of the work, it was found out that the amount already sanctioned was considerably below the

25.12.1900

Sanctioned by
 26/12/00

No 10883-86 of 20-3-1900
 126-97 Rs 2250

requirements, that it
 was impossible to
 foresee the cost of
 drawing the water
 and to estimate the
 quantity of silt to
 be removed in the
 case of works of this
 nature, that a sum
 of Rs 730 was spent
 on this work before
 the end of last year
 and that in view
 of the exceedingly urgent
 nature of the work,
 he has requested the
 Executive Engineer
 to push on with the
 work up to a limit
 of Rs 4,000/-, proposed
 to be appropriated
 in the current year
 and soliciting sanction
 to meet the cost of the

Engineer for not foreseeing
and not correctly estimating
the requirements
in the first instance
is not quite satisfactory.
Before, however, ac-
cording sanction to
this 3^d estimate, the
Government deem it
desirable to consult
the Chief Engineer. If
upon a consideration
of what is now represented,
the estimate is not
deemed excessive and
provides for ensuring
the completion of the
work the Chief Engineer
is requested to give the
needful instructions
to the Executive Engineer
for carrying out the
work in such a manner

present estimate from
Local Funds General.

Docket No 616, dated
5th December 1900, from
the Mazraa Superintendent,
stating, with reference
to Government Proceedings
No $\frac{4980-1}{L.S. 126-97}$ dated 10th October
1900, that the priest of the
Sravava Balagola Mutt
is now willing to con-
-tribute out of the Mutt's
funds Rs 500/- in addition
to Rs 500/- already con-
-tributed by him

Sir,

Adverting to Government
Proceedings No. $\frac{8514-16}{24126-97}$, dated 25th
December last, regarding work
required as per Revised estimate
of Rs 8,800, for improving the
Kalyani at Sravana belagola, Chennarayana
Taluk. - I have the honor to
forward the accompanying copy of
letter No 110 of the 5th instant from
the Resident Engineer Hassan Division,
and to inform you that under the
explanation therein given which seems
satisfactory, Mr. Nagarkar has been
directed to push on with the work, and
to complete it before the rains set
in. I request therefore that you will
be

To The Superintending Engineer
Western Circle

Dated Camp Belur 8th March 1901

Despatched 15th March 1901

General No 110.

Sir,

With reference to your
No 297 dated 29th January 1901,
forwarding for report copy of
Government Proceedings No. 8514-16
L.F.126-97
dated 26/12/00, passing orders on
revised project of Rs 8,800 for
improving the Kalyan at Sra-
vanda Belagala Bhamarayapatna
taluk I have the honor to
report that the work was
stopped in October 1900 owing to
the Kalyan receiving a supply of
water during the last N. E. monsoons.
There is now 7 feet of water in it and
it

It will cost Rs 900 to pump it out
There is no provision in the estimate
for pumping out water the 2nd
time. The estimate provision
under this subhead will there-
fore be exceeded by Rs 747.
This excess will however be met
from contingencies and savings
expected on clearing silt
Greater part of the silt which
was thrown on all sides of the
Kalyani has been carted away
by the ryots and others for
manuring their fields and
gardens. The cost of silt clearing
will be less on this account
than estimated for.

2. I beg to note below the progress
on the work up to date.

Pumping water	Rs 1,347
Repairing sluice	" 39
Clearing silt	" 1709
Total Rs 3,095	

Out of this, Rs 620 were spent last year.
An allotment of Rs 7,000 is required
for expenditure during the current
year.

Year

3. With reference to ^{the} query whether ^B the revised estimate provides for what is absolutely necessary for the satisfactory completion of the work, I beg to state that the principal work to be done is silt clearing, the quantity of which was ascertained by actual measurement after pumping out all the water from the Kalyani. The revised estimate makes sufficient provision for clearing the silt.

4. The first two estimates for the work were admittedly rough, as works of this nature are carried out rarely or once in a century, and there are no data to base calculations upon. I had, however, reported to you and the Deputy Commissioner in March 1900, that "the work is of miscellaneous character and it is impossible to estimate the cost of baling water and clearing silt to any degree."

44
degree of correctness" To add to
this, the work was started un-
seasonably at the urgent
request of the Deputy Commissioner
to give relief to the labouring
classes. I trust that the im-
-possibility of foreseeing the
cost required for pumping
water and clearing silt in
the absence of any data, will
be admitted

5. The revised project said to
have been returned, as stated
in para II has not been re-
-ceived in this office

Soliciting early orders to resume
work.

I have &c
18d/4 S Nagarhar
Executive Engineer
Hassan Division.
